SHUTGUN® FIRE SPRINKLER SHUT-OFF TOOL

The Shutgun® is the ONLY tool that can instantly stop individual fire sprinkler heads that have been accidentally activated. Accidental triggering is one of the largest causes of water damage to multi-unit residential and commercial structures. Used by facility and construction managers, and fire departments all over the world. Fusible link ensures that the water from a fire sprinkler head is securely shut off within seconds, but does not affect continued fire protection to the building.

ENZYMATIC DRAIN CLEANER

Highly concentrated mixture of naturally occurring bacteria and enzymes, ideal for safely opening clogged drains and preventing the build-up that often leads to plumbing failure.

Non-toxic formula is recommended for use where liability, safety, and environmental impact restraints prevent the use of caustic or acid openers.

Perfect solution for plumbing maintenance in apartment buildings, hospitals, schools, prisons, restaurants, & parks.

- Will not harm piping, valves or seals
- Can be safely used in standing water
- Adds beneficial microbes to septic systems
- Safely removes build-up in old piping
- Eliminates foul odors in piping and drains
- Quart or Gallon plastic bottle (mint odor)
